Superintendent of Deliveries
Norwalk, Conn.

Dear Sir:

Mrs. Wood informed me that she was at the post office yesterday and you showed her your address book with the last notation against Howland Wood and family as being of date 1929. Both in June and at the end of September 1930, as well as June 25th this year I took particular pains to write concerning the delivery of our mail. I am herewith enclosing a copy of my last letter. If there is any further way of conveying this information so it gets across and registers, please inform me. Last year we had continuous trouble with our mail, due chiefly on account of the substitute rural carrier. I trust this year the delivery of our mail will be as efficient as it is supposed to be.

Very truly yours,

HW:JG
